

Laurence A. Sivic
Glenn Research Center

Mr. Laurence (Larry) A. Sivic is the Deputy Chief Financial Officer at the Glenn Research Center (GRC) in Cleveland, Ohio, a Center with world-class research, technology, and development effort capabilities keys to advancing exploration of our solar system and beyond while maintaining global leadership in aeronautics.

The Chief Financial Office has management and leadership responsibility for accounting, finance, budget, business systems and tools, financial audits, internal controls and cost estimating efforts at the Glenn Research Center.

During his career with NASA, he has also served as Chief of the Mission Support & Integration Office at GRC supporting the Center & Agency with his functional and technical knowledge contributing to the various Integrated Enterprise Management Program (IEMP) implementations.

He recently received an Outstanding Leadership Medal from the National Aeronautics and Space Administration for outstanding leadership in designing, managing, and implementing financial policies, systems, and reengineered processes at both the Center and Agency level.

Mr. Sivic is a native of Broadview Heights, Ohio. He earned his BS Degree in Accounting and Computer Science from Bowling Green State University. He joined NASA in 2004 after an extensive career with Accenture implementing Enterprise Resource Planning (ERP) systems such as SAP.
